

ENDURA[®] A90H

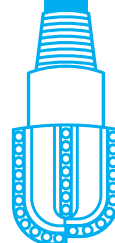

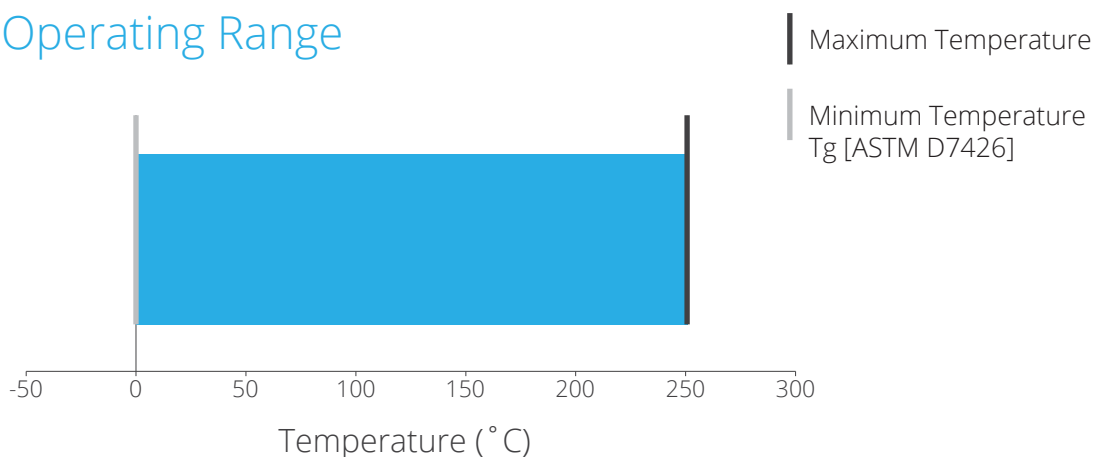

Oilfield Elastomer

An Aflas[®] with exceptional rapid gas decompression resistance and excellent tolerance to methanol, amine and steam. This material has outstanding mechanical properties that can endure the harsh operating conditions faced in upstream applications.

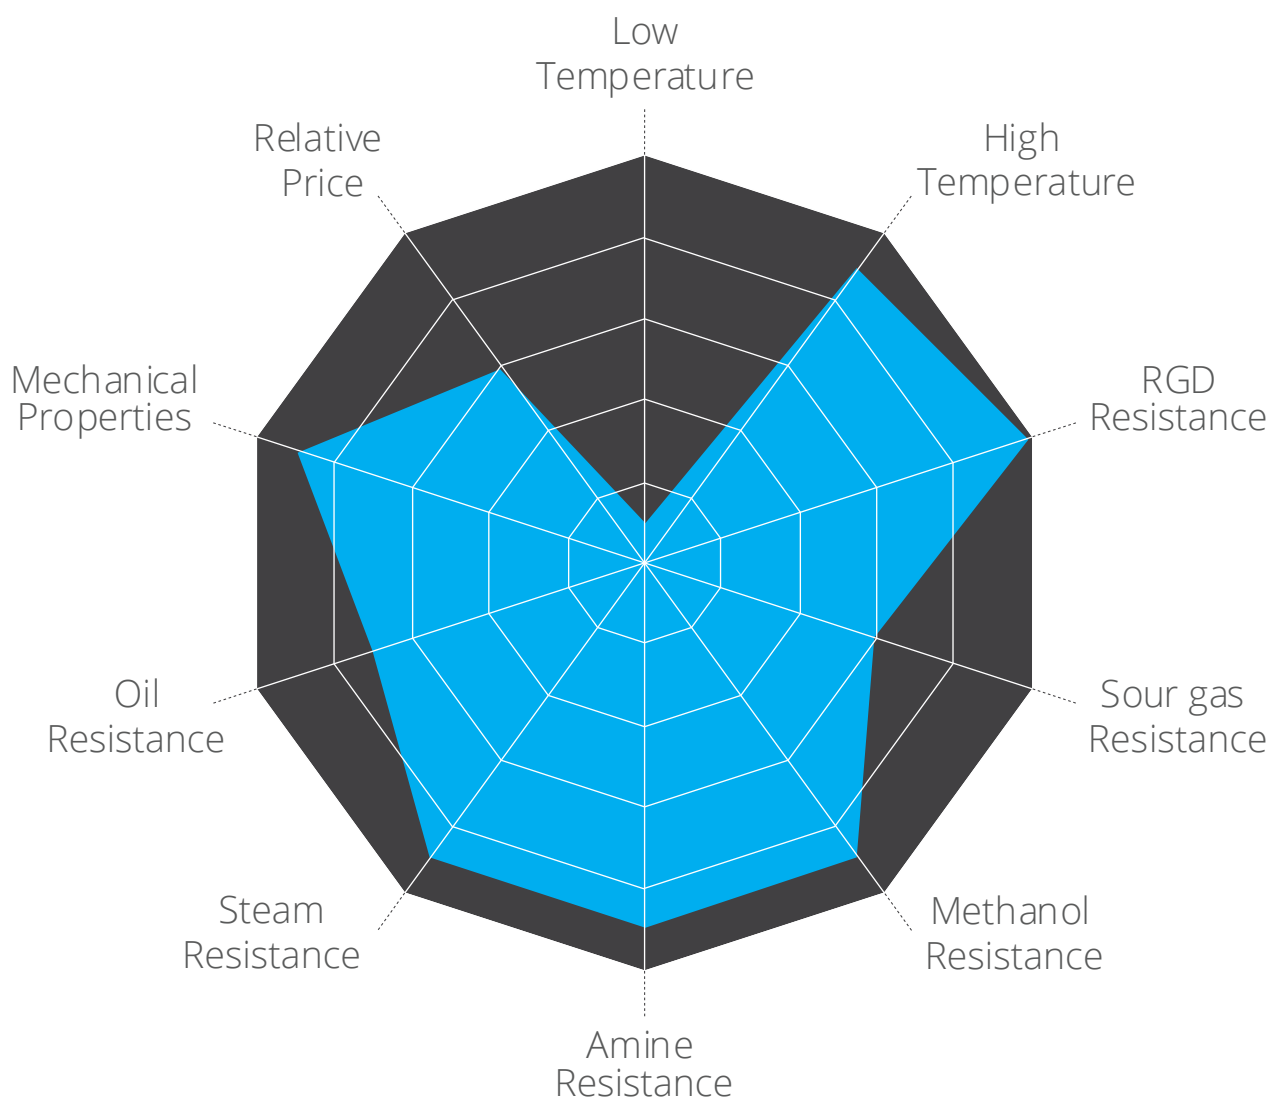

Operating Range

**For test reports and certificates please contact a PPE representative.*

ENDURA[®] A90H

**This diagram is a visual representation of EnDura A90H material performance characteristics.*

RGD Performance

Evidenced by NORSOK Annex B Testing - TOTAL GS EP PWV 142.

Chemical Resistance

Excellent retention of properties after high temperature air ageing.
