

PERLAST® G92E

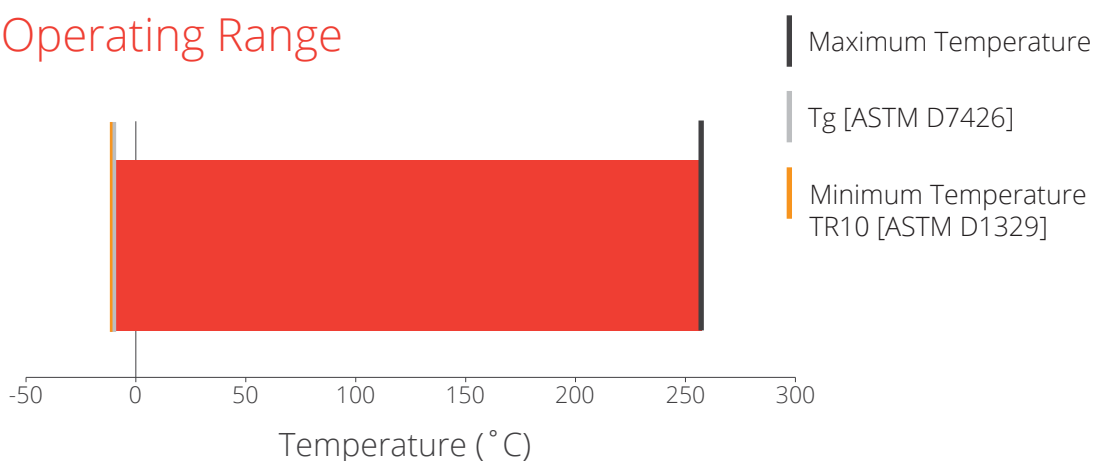

Oilfield Elastomer

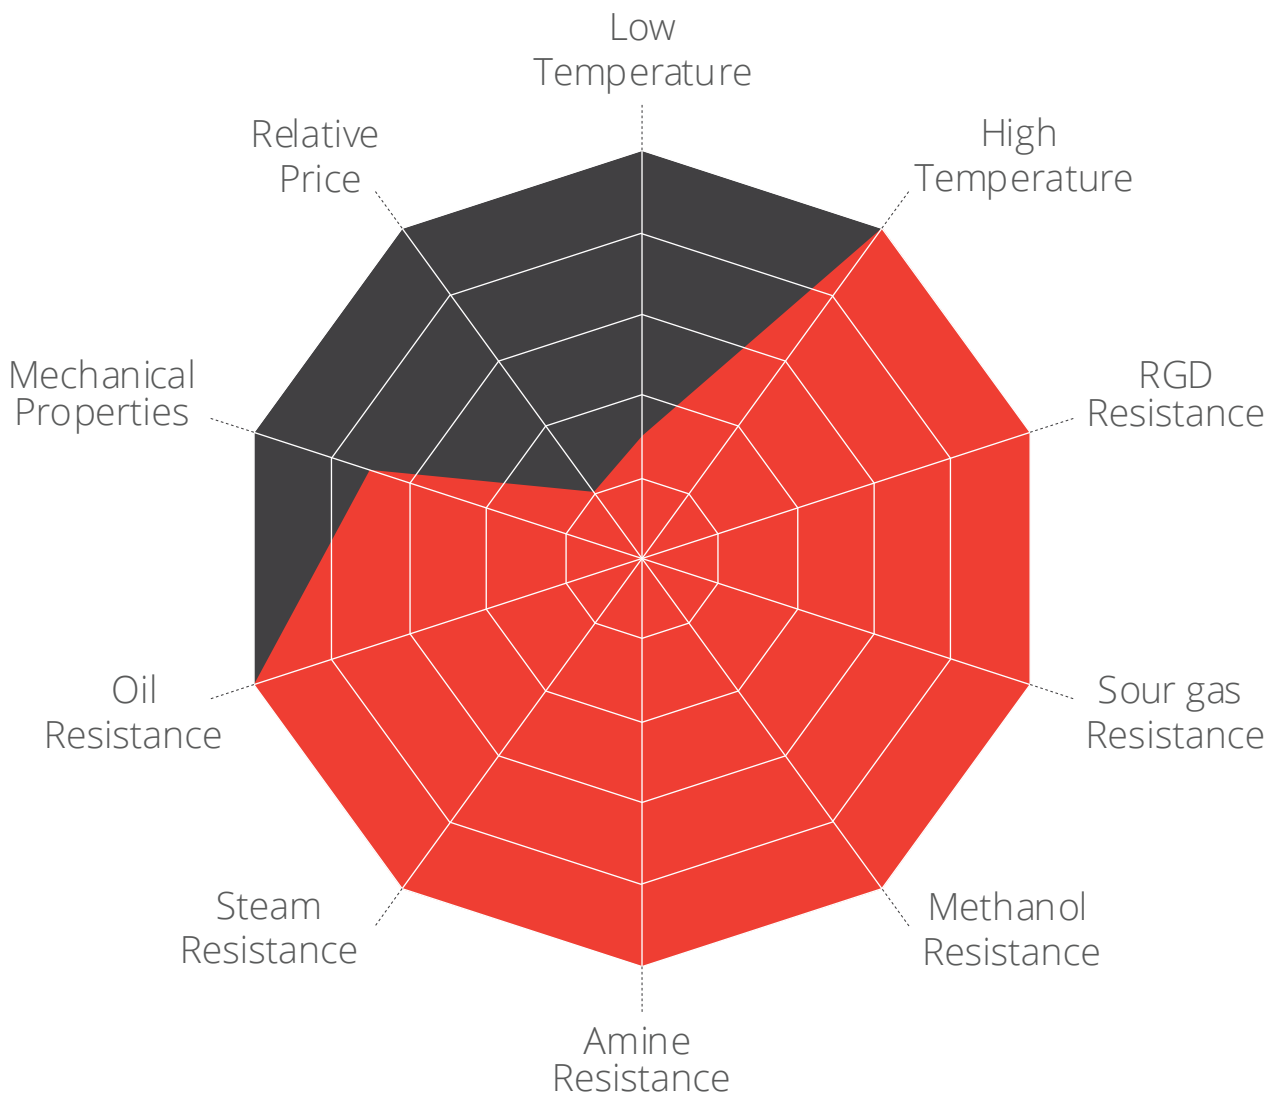

An FFKM with exceptional rapid gas decompression resistance and excellent high temperature performance. This material has universal chemical resistance against sour gas (H₂S), methanol, amine, steam and oils.

Operating Range

**This diagram is a visual representation of Perlast G92E material performance characteristics.*

RGD Performance

Evidenced by NORSOK Annex B Testing, TOTAL GS EP PW 142.

Chemical Resistance

Evidenced by NORSOK Annex A, API 6A.
